

## HOW MUCH ROAD DOES JAPAN GET?

### Important Question Growing Out of the Treaty

#### MANCHURIAN AUTHORITIES ARE IN SOME DOUBT.

If Kwang Cheng Tse Is the Starting Point the Property Is Enormously Valuable.

GODZYADANI, Manchuria, Sept. 9.—The peace terms became known here today. The majority consider them inoffensive to Russian honor and dignity. It is not clear at what station the railroad is to be turned over to the Japanese, at Kwang Cheng Tse or Chantufu. This question is very important. If the transfer occurs at Kwang Cheng Tse, then Russia cedes to Japan 100 miles of yet unoccupied line and likewise the only coal mines south of Harbin. From Chantufu start all the trade routes to the very rich Kirin province, and should the road become the property of the Japanese to Kwang Cheng Tse the complete possession of Chantufu would place Kirin province entirely under Japanese influence. This would be undesirable for Russia.

Should the transfer be made at Chantufu or further south, Kirin province, which has supported the Russian army for six months, would remain Russian, which would be particularly advantageous because the southern portion of the railroad has no natural outlet.

This, and many other questions, such as the Russians' right to maintain consular officials and commercial agents at Liao Yang, Mukden, Port Arthur and Port Dabuy should, it is claimed here, be settled before the armistice with the Japanese is signed. A high official declared today that it would be impolitic to permit the Japanese to settle in Kwang Cheng Tse, for in case of another war they could reach Harbin in fifty hours, occupy Kirin and cut Russia off from the Amur regions.

It was announced by the Associated Press from Portmouth, N. H., August 30, that the formal recognition of Japan's possession of the Chinese Eastern railroad between Kwang Cheng Tse and Chantufu involves the payment by Russia to China of a sum estimated at \$75,000,000. This is the Chinese interest in the road and for it China must be remunerated.

The question of the ultimate possession of the road is a matter to be settled between Japan and China. Japan can keep the road and return the money paid by Russia to China. If she elects the latter course Japan will, therefore, obtain as an indirect "spoils of war" from Russia the \$75,000,000 in addition to reimbursement for the cost of maintaining the Russian prisoners of war.

## PAUL MORTON IS BUSINESS-LIKE

### SOME PLAIN WORDS TO AGENTS OF THE EQUITABLE.

New Management Will Not Aim to Be Dazzlingly Brilliant, But Merely Honest.

NEW YORK, Sept. 11.—President Paul Morton outlined the policy of the new management of the Equitable Life Assurance society in an address delivered at Manhattan Beach today to seventy-five agents of the society, who came from different parts of the country.

After briefly reviewing recent events in the Equitable, Morton said:

"I am going to say a few words to you on your new administration. There will be no attempt to make it dazzlingly brilliant. The effort will be to make it honest, courageous and conservative. There will be the greatest consideration shown for the policy holders and at every turn their interests will be protected. All of the new directors are policy holders. Business-like methods will prevail. The more economy of the right sort we can institute the more we can save the policy holders. Investments will be of the highest character."

"The institution will not be run as an adjunct to any one or several banking houses. Every owner of securities will have a chance to deal with us, and our aim will be to be the very best at the very lowest prices. The cheaper the society can be properly administered, the better we can invest our earnings and the better showing we can make the easier will it be for agents to sell our insurance."

"I want to see the insurance business removed as far as possible from politics. I believe in proper laws, safeguarding the sacred trusts of insurance, and I will operate in the enactment of any necessary laws with that end in view. We shall all work to put the business of life insurance on the elevated plane it ought to occupy."

"The new management of the Equitable will insist on an annual audit of its affairs by an unbiased and independent accountant. There will be no attempt to deceive anybody, not even ourselves."

"Retrenchments are the order of the day in the Equitable. They will amount to over \$600,000 per year, which is equal to 4 per cent on an investment of \$15,000,000. They will amount to a much larger sum before we are through and I am sure that we will satisfy, not only our own policy holders and our own agents, but the many who will buy what we have to sell."

ROME, Sept. 11.—Henry White, the American ambassador, today contributed \$100,000 to the fund for the relief of the earthquake sufferers.

## TEXAS RANCHMAN IS SPECIAL COUNSEL IN BEEF TRUST CASES.

CHICAGO, Sept. 11.—Benjamin Davis, a ranchman of Texas, has been appointed special counsel for the government in the packers' cases by Attorney General Moody. The department made the appointment on Monday. Davis' official position during the beef case trials will be that of special assistant United States district attorney. The appointment is made by the attorney general upon the recommendation of the District Attorney C. B. Morrison and Assistant Attorney General Oliver E. Pagan.

## ELECTIONS IN SPAIN. RESULT IS GIVING GOVERNMENT MAJORITY.

MADRID, Sept. 11.—The result of the legislative elections held yesterday is that the monarchists have carried Madrid and the Republicans have carried Barcelona and Valencia. The elections assure the government an important majority in the cortes. The known results are 140 monarchists elected, sixty-four conservatives, twenty-five republicans, six independents and three Carlists. There were many election disorders, during one of which a girl was killed.

## EXECUTION OF LEADER OF SOCIALIST FACTION EXCITED WARSAW AGAIN.

WARSAW, Sept. 11.—In consequence of the execution of Friday of Ivan Krasinski, a Socialist leader, condemned by a court martial for inciting a police murder, all the factory employees in Warsaw struck today. Cossacks and infantry are patrolling the streets. A large number of arrests were made in a theater at Lodz last night. An individual from the gallery flooded the house with revolutionary documents, whereupon the police surrounded the theater and arrested about 200 of the occupants.

## RUSSIAN MARKETS OPEN TO AMERICA

### MAXIMUM TARIFF RATES ARE TO BE WITHDRAWN.

Offering Manufacturers of Machinery and Metal Goods Promising Fields for Big Business.

WASHINGTON, Sept. 11.—The state department has not yet been informed officially of the action of the Russian government in revoking the ukase imposing maximum tariff rates on certain American articles of importation, principally machinery and metal goods. Ever since last spring, Ambassador Meyer, acting under instructions of the department, has been trying to secure removal of these restrictions on American trade, which have been very disastrous, especially to a large and increasing business in agricultural implements and machinery.

The Russian government finally concluded that it would rescind the ukase voluntarily and without exacting a return favor. Consequently, American cast and wrought metal works, tools, machinery, portable engines, locomotives and many other important staple exports, which were being fairly driven out of the Russian market by the competition of German and English machinery favored by the minimum tariff rates, are now expected to have an enormous sale, not only in Russia proper, but in Siberia, which will develop rapidly from an agricultural point of view as a result of the cessation of hostilities. It is understood that Secretary Shaw will recommend to the next congress legislation calculated to remove some of the severe features of the existing tariff laws providing for the imposition of a countervailing duty on bounty aided exports, the application of which by Secretary Clegg in 1901 caused the voluntary extinction of them and allowed American exporters the benefits of the minimum tariff rates.

It is learned that Switzerland, too, which has imposed maximum rates on American products, about to voluntarily extinguish them and allow American exporters the benefits of the minimum tariff rates.

## KING OF ITALY VISITED THE RUINS

### DREADFUL SUFFERING RESULTS FROM THE EARTHQUAKES.

Fissures in the Earth's Surface Mark the Places Where Villages Once Stood.

MONTI LEONE, Calabria, Italy, Sept. 11.—King Victor Emmanuel arrived today at the places stricken by the earthquake. He was received by Signor Ferraris, the minister for public works and the population, which gave the emperor a demonstration and a great welcome. Signor Ferraris had previously visited the village of Zammaro which presented a terrible spectacle. All the houses have been destroyed and the inhabitants are in a state of helpless terror. During the railway trip from Tripoli, Signor Ferraris saw upon an elevation the ruins of a village completely destroyed.

The entire district shows the immensity of the disaster. Torn walls of all the buildings have tumbled down and the population were crying to be conducted to the minister, who stood at the edge of a great fissure of earth where formerly existed a portion of the place, now swallowed up. At Plesio troops are burning bodies and everywhere officers and soldiers are sharing their rations with the population.

Signor Orlando, the proprietor of the shipyard at Leghorn, has contributed \$120,000 for the relief of the earthquake sufferers.

## AWFUL ACCIDENT ON THE ELEVATED

### Crowded Car Was Pitched Into Street Below

#### TWELVE PERSONS KILLED AND TWO SCORE INJURED.

Responsibility for the Disaster Is in Doubt—Wrong Switch Was Turned—Arrests Made.

NEW YORK, Sept. 11.—The death list of today's accident on the Ninth avenue elevated railroad, when a car crowded with early morning workers on their way down town was pitched into the street, stands at twelve. Three men are in hospitals with fractured skulls. One of these, who as yet remains unidentified at Roosevelt hospital, is unconscious and not expected to live. Not less than two score of persons were injured, many of them seriously.

The cause of the accident and the immediate responsibility remain to be ascertained. The motorman of the wrecked train is a fugitive while the switchman, conductor and four guards are under arrest. The switchman is charged with manslaughter and the trainmen are held as witnesses. Tonight, Coroner Scholer, who has undertaken the work of fixing the blame for the wreck, announced that the switchman's bond has been placed at \$5000 and those of the witnesses at \$100 each.

Whatever may have caused the mistake, the accident, the worst in the history of the overhead railroads in New York, came when a southbound train on the Ninth avenue line was switched to the Sixth avenue line at Fifty-third street, just after 6 o'clock. Expecting a clear track on the direct line of the Ninth avenue line, without regarding the warning signal that the switch was open, rushed his train along at a high rate of speed. The first car swung around the right angle curve, holding the rails because of the weight of the train behind. Then the train began to lurch. The coupling broke, the second car was whirled about almost end for end, and to the horror of those who looked on from below, pitched into the street.

The first indication people on the sidewalk had of the accident was a loud rumbling along the overhead structure. Looking up, they saw a shower of sparks. The following splinters and sound of splintering timbers. Suddenly the outer guard rail of the railroad structure gave away, a score of bodies were hurled through space and with a deafening crash the car fell to the street. For an instant it stood fairly on end. Then the sides gave way as if they were made of pasteboard, bursting out in a mass of humanity. Those passengers who had not jumped from platforms and windows before the plunge came were thrown into a mass at the forward end of the car. As the injured men and women were struggling to free themselves two heavy front trucks of the third car of the train fell almost in the midst of the car itself, jamming the wreckage into the street and wedged against a building at the east corner of Ninth avenue and Fifty-third street.

Huge crowds were soon on the scene and the first work of the hastily summoned police reserves was directed to clearing a way for the rescuing of the passengers pinned down by the car. Almost every ambulance in Manhattan was summoned and the injured and dead were hurried away with all speed.

Three alarms of fire brought many engines to the scene. A slight fire caused by burning insulation was quickly extinguished and the firemen set to work chopping out the dead and injured. The task was an easy one, for the heavy car, in falling, had almost completely buried pedestrians in its wreckage. At least one was killed outright in this way, while Policeman Henry Atkins, who was standing directly under the elevated structure is among those most seriously injured.

Eight persons were dead when taken out of the wreck and four died later at hospitals.

JACOB M. ANSPACH, merchant and member of the Newark, N. J., board of trade.

ERNEST P. SCHEIBLE, electrician.

THEODORE MORRIS, colored.

JOHN COCHRANE.

SALOMON S. NEUGRESS, employed by the Mutual Chemical company.

CORNELIUS MCCARTHY, laborer.

WILLIAM LEES, electrician.

JOSEPH RACH, policeman.

JAMES COOPER, employed by the Fireproof Tenement House association.

EMMA CONHOVEN, died in Roosevelt hospital.

ALBERT WEILSTER, clerk, died in Roosevelt hospital.

Louis Abel, clerk, married, two children.

## LANDING OF ARMS ON FINLAND COAST

### Revolution Against Russian Rule Grows Serious

#### CUSTOMS OFFICIALS MADE TWO ALARMING FINDS.

Small Steamer With Munitions of War Was Overhauled and Afterwards Sunk by Crew.

HELSINGFORS, Finland, Sept. 11.—Customs officials on Saturday discovered 600 carbines of Swedish manufacture, with bayonets and 120,000 cartridges on a barren island in the Gulf of Bothnia near Kerri. On Sunday morning a boat belonging to the customs service discovered a 200-ton steamer near Kaliskaer Rock, twenty miles outside Jalkskat. The captain and members of the crew, who spoke in English, declared that the steamer was fully loaded with rifles and cartridges and thereupon the customs officials ordered the captain to take his vessel into port and discharge the cargo.

The steamer proceeded toward the shore, the customs boat going in the meanwhile toward a nearby island. Suddenly several explosions were heard from the steamer and the customs officers on returning found the vessel sinking and her crew in life boats disappearing hurriedly toward the south. The officials immediately pressed into service a number of fishermen who unloaded most of the rifles and ammunition on the beach.

The steamer grounded in shoal water. Her name was painted over, only the letters "John Basil Fton," being visible. American and German flags were found aboard the vessel.

On the night previous to the discovery of the rifles and ammunition on the island near Kerri, a fisherman declared that he saw a small steamer cruising in a curious manner in the offing.

ST. PETERSBURG, Sept. 12. (3:43 a. m.)—The news from Finland of the accidental discovery of the importation of rifles and munitions in large quantities in St. Petersburg itself, but guarding the revolutionary movement in Russia, that has yet been made, as it indicates an intention to form a regular military organization.

The importation of revolvers to Finland, Poland, the Baltic provinces and other districts of Russia, has been an ancient trade for a long time. In the initiated have found it little difficult in purchasing repeating pistols of a small type in St. Petersburg itself, but these are pocket weapons, intended only for use in street rioting and in attacks on the police. The importation of small caliber repeating rifles and carbines of a design to organize formal resistance to the troops and the presence of bayonets in the consignment strengthens this supposition.

No information can be obtained here concerning the possible identity of the filibustering steamer which, according to one despatch from Helsingfors, is supposed to have been cruising under the American flag though this probably will be a mask.

It is considered here that the active faction of the Young Fenonian party of Finland is probably involved in the conspiracy and it is recalled that the investigation into the assassination of General Bobrikoff, governor general of Finland at the time of last year, disclosed the existence of a society formed for the purpose of importing arms.

## ARMENIAN CITIZEN OF UNITED STATES MAY BE EXECUTED

WASHINGTON, Sept. 11.—Minister Leishman reports to the state department that the Turkish government is disposed to maintain strongly its position that the naturalized Armenian who has been sentenced to death for murder at Stamboul shall be treated as a Turkish subject and cannot be allowed the privilege of a foreigner.

The minister is continuing his efforts in behalf of Varientian. The Turkish government has so far not formally proposed the settlement of the issue by arbitration and it appears that Leishman would be obliged to decline any such proposal.

The American law as to citizenship is different from any of the European countries, which almost uniformly require that their assent shall be secured to the naturalization abroad of their subjects, so that it would probably be impossible to secure an arbitration court that would not be obliged to hold that international law was adverse to the American position.

KANSAS CITY, Mo., Sept. 11.—Twenty negro pupils were refused admittance to the white schools at Kansas City, Kansas, today, it is said, and will contest the case in the courts. The Kansas legislature last winter passed an act separating the races in the Kansas City high schools. Bonds for the erection of a school for the negroes were issued, but the structure has not been erected yet. Under the negro school has been erected there will be two sessions of the white school. The white children will be permitted to attend in the morning and the negroes in the afternoon. At Bonner Springs, Kansas, near here, fifty white pupils left the school building when the members of the board of education notified them that they would have to occupy the same rooms as the negroes. In both instances the negroes withdrew quietly and there was no show of a clash.

Folk for the Presidency. SALT LAKE CITY, Utah, Sept. 11.—Governor Joseph W. Folk of Missouri, was recommended for the Democratic nomination for the presidency by former Congressman William H. King at the board of education notified them that they would have to occupy the same rooms as the negroes. In both instances the negroes withdrew quietly and there was no show of a clash.

Clapperton Island Fisheries. MEXICO CITY, Sept. 11.—A detachment of federal troops has been sent to Clapperton island, in the Pacific, to guarantee the interests of the company which has a concession to establish fisheries in the neighborhood of the island.

## MEMORY OF PERRY WAS DULY HONORED IN RHODE ISLAND.

### NEWPORT, R. I., Sept. 11.—"Perry Day," the most important day in "Old Home Week" in this city and named in honor of Rhode Island's great naval hero Commodore Perry, was observed today. Statues of Perry were handsomely decorated as also was the old stone mill. The principal event of the day was a naval parade of sailors and marines from the vessels of the east squadron of the North Atlantic fleet and apprentices summoned from the naval training station.

Tonight both the city and harbor were brilliantly illuminated. The flagships Texas and the monitors Nevada and Florida and Arkansas were outlined in electric lights. The most spectacular feature of the marine illumination, however, was the playing of the searchlights from all the warships upon the American flagships on the signal masts of the vessels. There was also a beautiful electric display at the torpedo station.

The statues of the two Commodore Perrys and the old stone mill were outlined with small lights. Five arches formed a miniature fairland with their growing lights and a miniature electric display was seen on Thames street in the form of the old stone mill.

Oil Fuel in British Navy. LONDON, Sept. 11.—Exhaustive experiments with oil as fuel on steamships have proved so satisfactory that the British admiralty is ordering the erection of a great oil store at Plymouth with jetties at which steamers can now be refueled. It is understood that stores of oil will be established at all home ports.

Eppinger Trial Postponed. SAN FRANCISCO, Sept. 11.—In Judge Lawlor's court today the cases of Jacob Eppinger and Herman Eppinger and James Demings were postponed until September 23.

## CANAL ENGINEER AT OYSTER BAY

### PRESIDENT ROOSEVELT OUTLINED HIS VIEWS OF PROJECT.

But his Statement to the Experts Was Not Given Publicity—Other Guests.

OYSTER BAY, N. Y., Sept. 11.—Members of the board of consulting engineers of the Panama canal took luncheon with President Roosevelt at Sagamore Hill today.

The president received the members of the board in the handsome new dining room, the presentations being made by General Davis. During the luncheon which followed and at which Dr. A. W. Shaw, editor of the Review of Reviews and John Barrett, United States minister to Colombia, were also guests, the discussion of canal matters was general but informal. At the conclusion of the luncheon the president made a brief but informal statement to the board in which he outlined definitely the policy to be followed in the canal construction. That statement was not made public, publicity being considered undesirable.

The engineers were in conference with the president until 3 o'clock when they returned to the Siphon which sailed soon afterward for New York. The board will leave New York tonight for Washington and resume its session there.

The call of Dr. Shaw and Minister Barrett was largely personal. The latter will remain in this country until October in order that he may confer with Secretary Root and Cortes of Colombia, who is in Boston, before returning to his post.

BULLFROG, Nev., Sept. 11.—Locating Engineer W. C. Riching and party of fifteen surveyors reached Bullfrog tonight, having completed the location of a railroad from Goldfield over the Arroyos river route. This survey was made in record time and indicates an intention to begin construction without delay.

## ARGUMENT IN TAGGART CASE

### BIG CROWDS ATTEND CLOSING SCENES OF TRIAL.

Attorney Smyzer Attributes the Disagreement to the Jealousy of Captain Taggart.

WOOSTER, Ohio, Sept. 11.—As large an audience has been present at any time at the Taggart trial gathered in the court house today to hear Colonel Smyzer's address on behalf of Mrs. Taggart.

Mrs. Taggart was in court early. She listened to every word of her attorney. Major Taggart was not in court during the early part of the morning and was represented only by Attorney Sterling.

Smyzer, after reading the correspondence that passed between the major and Mrs. Taggart after their separation, said this correspondence showed that jealousy on the part of Taggart was the only cause of the trouble. Smyzer scathingly denounced all who had made the charges against his client.

"If these charges are not true," he said, "Taggart ought to be called to account before the military tribunals."

Salmon Catch Was Good. SAN FRANCISCO, Sept. 11.—The Star of Italy, one of the Spanish liners, arrived today from Nushag, Alaska, with 50,000 cohes of salmon. Captain Anderson reports that this season's catch is one of the best in years.

## NO DEATHS IN STRICHEN CITY

### First Time Since Epidemic Was First Detected

#### ENCOURAGING COMPARISON WITH SAME DATE IN 1878.

Norwegian Consul Died at Pensacola, Florida, the Case Having Been Concealed.

NEW ORLEANS, Sept. 11.—Official yellow fever report to 6 p. m., Monday: New cases ..... 38 Total to date ..... 2327 Deaths ..... 0 Total ..... 316 New Foci ..... 18 Cases under treatment ..... 300 Discharged ..... 1711

The report of no deaths today, the first time since the announcement of the presence of yellow fever here on July 21st, when contrasted with the record of 1878, presented quite a contrast because September 11, 1878, was the record day for deaths during that epidemic, ninety being recorded.

Dr. White today gave out the composite parts of the new epidemic which will be used hereafter in fumigation, the discovery of which was announced Saturday. It is composed of equal parts of crystal carbolic acid and gum camphor, and three ounces will be sufficient to thoroughly fumigate 1000 cubic feet of space. He advises against its use by citizens generally on account of the danger of handling it.

The most interesting feature of the country news was the report from the health officer of St. John parish of the existence of about twenty-five cases at Lious, a lumber town in that parish, and his statement that the patients were not being properly cared for and that they had been concealing the illness.

## PENSACOLA, Fla., Sept. 11.—Nine new cases and one death in the yellow fever record for Pensacola today concluding at 6 p. m. Suspicious or doubtful cases none about twelve. The death was that of A. Wolfberg, chief consul of Norway, who died today after a brief illness. He was taken ill five days since and did not call in a physician, the case being located by inspectors. A post mortem examination revealed the fact that he had died of yellow fever of the most malignant type.

Britt-Nelson Fight Finances. SAN FRANCISCO, Sept. 11.—The total receipts for the Britt-Nelson fight were \$48,311. That amount was divided as follows: Nelson, \$19,941.29; Britt, \$12,500.86; Management, \$16,968.82.

## AUSTRO-HUNGARY SPLIT IMMINENT

### HOPE OF PEACE APPEARS TO HAVE BEEN ABANDONED.

Emperor Francis Joseph Has Yielded to Ministers' Advice Against Universal Suffrage.

VIENNA, Sept. 11.—All hope of peace between the crown and the united opposition in the Hungarian diet seems to have come to an end. It is understood that Emperor Francis Joseph, who at first was apparently inclined to acquiesce in the plan of the Hungarian ministers for the granting of universal suffrage as one way of bringing about the defeat of the united opposition, has been induced to change his mind by the Austrian ministers who feared the effect on political conditions in Austria if universal suffrage should be granted to the Hungarian people.

It is not considered likely that Premier Fejervary's consultation with his colleagues will lead to any modification of the Hungarian ministerial program and it is thought that at the audience tomorrow the emperor will reject the idea of universal suffrage, and that the Fejervary cabinet will resign.

## WEATHER REPORT.

SAN FRANCISCO, Sept. 11.—Light showers have fallen along the coast and conditions are unfavorable for settled fair weather. The temperature has fallen rapidly in the interior of California and afternoon temperatures are below 80 degrees.

Forecast: San Francisco and vicinity: Cloudy, unsettled weather Tuesday; possibly light showers; light south wind, changing to fresh westerly.

Los Angeles vicinity: Cloudy Tuesday; fresh south winds.

Sacramento and San Joaquin valleys: Cloudy Tuesday, POSSIBLY LIGHT SHOWERS; fresh south winds.

Coast: Cloudy Tuesday; possibly showers; light southwest winds.

## GERMAN IMPERIAL BANK RAISED DISCOUNT RATE OWING TO BIG DEMAND

BERLIN, Sept. 11.—The rate of discount of the Imperial bank of Germany was raised from 3 to 4 percent today.

The controlling reason for raising the rate was the comparative weakness of the status of the bank owing to the heavy demands of industry and trade and to speculation on the bourse. In procuring the increase Vice President Gallenkamp pointed out that the gold stock of the bank had been steadily declining for some months, having been reduced about \$21,600,000 since June 23, and that it was now at the lowest for this year.

OVERALL TAKES TO UMPIRING

THE CINCINNATI NATIONALS HAVE HIRED NEW PITCHER

And the California Boy is Relegated to the Position Behind the Catcher.

Sunday's Results.

Los Angeles 2, Oakland 1. (Afternoon.)

Oakland 3, Los Angeles 0. (Morning.)

Tacoma 5, Seattle 6.

Portland 2, San Francisco 0.

SEATTLE, Sept. 11.—Miller for Seattle pitched a ball today and the home team held the Tigers without a run until the ninth inning. Tacoma got one then, but Seattle had in the meantime piled up four. Score:

Seattle.....R. H. E.

Tacoma.....0 0 1

Batteries—Miller and Blankenship; Fitzgerald and Hogan. Umpire—Brennan.

National League.

At Cincinnati.—Cincinnati and Chicago broke even in the double header today. The first game was a pretty pitching contest in which Von Winkle, the new pitcher of the Cincinnati, really won out. Chech was driven out of the box in the first inning of the second game before one of the visitors could be put out. Attendance 3000. Score:

First game.....R. H. E.

Cincinnati.....3 6 3

Chicago.....2 6 1

Batteries—Von Winkle and Schlei; Wicker and King.

Second game.....R. H. E.

Cincinnati.....0 2 4

Chicago.....12 17 2

Batteries—Chech, Walker and Street; Brown and O'Neill. Umpires—Overall and Weiner.

At New York.—New York-Brooklyn game postponed on account of rain.

At St. Louis.—Pittsburgh-St. Louis game postponed on account of rain.

American League.

At Boston.—Each team won a game here today, Boston taking the first and Washington the second. All the hits and bases on balls off Winter in the first game were made in the fourth inning. In the second game Boston's pitchers were batted hard, the game being called on account of darkness. Attendance 2600. Score:

First game.....R. H. E.

Boston.....6 11 1

Washington.....3 3 1

Batteries—Winter and Ambruster; Patten and Haydon.

Second game.....R. H. E.

Boston.....0 1 4

Washington.....14 16 0

Batteries—Hughes, Gibson, Criger and Owens; Falkenberg and Kittredge.

At St. Louis.—St. Louis lost a double header here today. The first game went eleven innings, Brenhardt winning over Ulfly two to one. The score in the second was also two to one in the regular number of innings. Attendance 2800. Score: first game.....R. H. E.

St. Louis.....1 1 0

Cleveland.....2 1 0

Batteries—Ulfly and Engelen; Brenhardt and Clarke.

Second game.....R. H. E.

St. Louis.....1 4 1

Cleveland.....2 4 1

Batteries—Glade and Sugden; Bloades and Clarke.

JORDAN ABSENT AT BOODLE TRIAL

ACCUSED SENATORS HOPE HE WILL NOT APPEAR.

Emmons' Case Was Continued to Allow of Subpoenas Being Served in San Francisco.

SACRAMENTO, Cal., Sept. 11.—The trial of E. J. Emmons, the senator from Kern who was expelled from the last session of the legislature for boodling, was commenced before Superior Judge E. C. Hart and a jury today.

Emmons' wife accompanied him into the courtroom and never left him until his belief that he would not be present to testify against Emmons or the other deposed senators who are awaiting trial.

Great interest was manifested over the absence of Joseph S. Jordan, the confessed and acknowledged go-between for the boodling legislators and the building and loan associations which they sought to dupe.

Jordan was not in attendance and many people in the crowd which thronged the court house were outspoken in their belief that he would not be present to testify against Emmons or the other deposed senators who are awaiting trial.

District Attorney Seymour was confident, however, that Jordan will be on hand when his testimony is required. It is a fact that all the accused men rely largely upon Jordan not to make an appearance in order to acquit them. It is known that Jordan's absence from the case and his consequent inability to testify is relied upon by Emmons, Wright and French and is also Harry Binkner's main reliance for a re-opening of his case and a new trial by the Appellate court.

District Attorney Seymour said: "Jordan will be here when he is wanted. He will take the witness stand and do his full duty. The fact that he is not here today is of no significance whatever. The proceedings today are necessarily of a preliminary character, and it is not to be expected that a jury will be secured. It may be tomorrow or later before the jury is secured and there is no use of Jordan being here until he is called to the stand to give his testimony."

"I have the full assurance that Jordan will do his duty throughout, but I cannot and will not discuss the character of the testimony he will give. I know, however, that Jordan will tell the truth."

Grove L. Johnson, announced to the court that several important witnesses at San Francisco had not been served with subpoenas and asked that an order of court be made sending a deputy sheriff to that city in order to make personal service on the men wanted. The court granted the request and an adjournment was taken.

NEW WORLD'S RECORD IN THROWING WEIGHT MADE BY FLANAGAN.

NEWPORT, R. I., Sept. 11.—In two weight events at the athletic games here today (the sixteen pound hammer and the fifty-six pound weight) John Flanagan, of New York, made distances which if allowed, will be world's records. In the sixteen pound hammer event Flanagan threw the weight 175 feet, the present record being 172 feet, eleven inches, which Flanagan made at Long Island City on July 21, 1904. Flanagan threw the fifty-six pound weight forty-two feet, the record being forty feet, two inches, also made by him at Long Island City, July 17, 1904.

OREGON TOWN IN THE TIMBER BELT DESTROYED BY FIRE

PORTLAND, Sept. 11.—A telegram special from Grant's Pass, Oregon, states that the entire town of Selma, on the stage road between Grant's Pass and Kerby, has been destroyed by fire. The flames originated in the Selma hotel, spreading to the nearby buildings. The hotel, two stores, a blacksmith shop, a church and several residences were burned, with nearly their entire contents. Selma is in a timbered section and the fire, spreading to the woods, is now burning in the fir and pine forests along State creek. The loss is estimated at \$150,000 or more, with little insurance.

Vigorets.

A fine, chocolate coated tonic laxative tablet, that gives VIGOR and health to the stomach, liver and bowels, thereby curing:

Sick Headaches, Biliousness, Sallow Complexion, Torpid Liver, Dyspepsia, Jaundice, Indigestion, Heartburn, Loss of Appetite, Pimples, Sour Stomach, Bloating, Nausea, Bowel Stagnation.

Take only one "VIGORET" at bed time and they will move the bowels gently, yet thoroughly each day and permanently cure—

CHRONIC CONSTIPATION

They cool, cleanse and purify the blood and are sold by all druggists in 25c packages (50 tablets) and the trial size (15 tablets).

Sold by GEO. H. MONROE, Druggist, Cor. Mariposa and J. Sts.

WEST INDIAN NATIVES ARRIVED AT COLON TO WORK ON THE CANAL.

COLON, Sept. 11.—The Royal Mail steamer La Plata, arrived here today, bringing 350 laborers from West Indian points under contract for work on the canal. The majority of these were from Barbadoes. Several left the ship at Port Limon, apparently preferring Costa Rica to the Isthmus of Panama.

About 500 persons under the direction of the health authorities are again fumigating every part of Colon.

Collision on Canadian Road.

OTTAWA, Ont., Sept. 11.—Collision of passenger trains on the Canadian Pacific, twenty-three miles east of here today, five persons were seriously injured and several others cut and bruised. Among the latter was James F. Pagan, of San Francisco, who was cut by broken glass.

AMERICAN OFFICERS AND PRESIDENT LOUBET AT THE MANEUVERS

CHATEAU BRIENNE, Department of Aube, France, Sept. 11.—President Loubet arrived on the field of maneuvers today and was given a notable welcome by the assembled generals and troops. At 3 P. M. President Loubet encountered Lieutenant General Adna R. Chaffee, Brigadier General J. Franklin Bell, Brigadier General William Crozier and their staffs. The Americans were presented to Loubet.

The maneuvers concluded with a brilliant banquet at which President Loubet, Lieutenant Chaffee, at the president's left and near were Generals Bell and Crozier and other foreign officers. Minister Berteaux, in behalf of the French army, thanked the representatives of the foreign powers for their attendance at the maneuvers, making special reference to the presence of the American mission. Lieutenant General Chaffee, in behalf of the United States and the American army, gave expression to their hearty recognition of the splendid reception accorded the American mission by President Loubet and the French army. President Loubet and the members of the American mission later returned to Paris.

MINISTER GUMMERE IS WARNED OF DANGER IN TANGIER DISTRICT

WASHINGTON, Sept. 11.—The following cablegram has been received at the state department from American Minister Gummere, dated at Tangier today:

"The tribes are fighting in the immediate neighborhood of Tangier, the Anglars versus the Raisi's tribe. The government is undecided in its position and the situation is entirely uncomfortable. I am protesting against being named by the diplomatic corps to the minister of foreign affairs. Have been informed that the mountains are unsafe and am returning to Tangier immediately."

It appears that Gummere had leased the beautiful residence formerly occupied by Ion Perdicaris, which was the scene of his kidnapping by Raisi and is situated some distance in the country.

BAKU OIL FIELDS IN NORMAL SHAPE

BUT DISTURBANCES SPREADING IN THE REGION.

Oil Men Petition the Czar for the Establishment of Safeguards to Save Industry.

ST. PETERSBURG, Sept. 11.—Dispatches from Baku received today indicate that increased, quiet and better conditions are prevailing there, but further fires have occurred and the troops are holding the oil fields under control. The news from other parts of the Caucasus, however, is very disquieting. Disturbances are spreading all over the region more or less seriously.

Oil men representing an annual production of 600,000,000 pounds met today and determined to ask the state for assistance in obtaining a twenty year loan without interest to cover the losses resulting from the catastrophe at Baku, without which loan they declared 108 of the 133 companies would be unable to continue in business.

The meeting drew up a remonstrance which they will ask Finance Minister Kokorsov to present to Emperor Nicholas, stating that it is impossible for the naphtha industry to exist under present conditions and that the companies would not resume operations unless guarantees were given them under which they would be restored and permanently maintained in the oil regions.

The oil men in Nizhni Novgorod and Astrakhan expressed the fear that attempts will be made to burn the stocks of oil stored there and they ask for the taking of protective measures.

ST. PETERSBURG, Sept. 12, 1:43 a. m.—The latest private telegram received from Baku reports that the situation there is growing worse.

Other confirmed dispatches assert that here rioters are stubbornly continuing their attacks and that the Tartars and Kurds are plundering in the "Black Town" district. The dispatches say that on Sunday the soldiers fired into a crowd of Russian workmen, killing seventeen.

A dispatch to the Caucasus Oil company from Baku, says that the fires in the oil fields are practically exhausted and that the military authorities are stationing guards in the district.

During the night, the dispatch says, incendiaries tried to land at Bibelat from small boats, but were driven off by volleys from the Cossacks. They then attacked steamers in which the employees of two oil companies had taken refuge during the uprising, but the attack was repulsed.

The incendiaries succeeded in setting fire to three machine shops in the Ushish district, killing the proprietor of one.

In the "Black Town" district the patrol fired a volley into a crowd of Russian workmen, which a shot was supposed to have been fired, but the dispatch to the Caucasus Oil company expressly states that no one was killed. Throughout the "Black Town" district the patrols are acting energetically in suppressing disorders.

ANGLO-CUBAN TREATY WAS NOT AGREEABLE TO THE UNITED STATES

WASHINGTON, Sept. 11.—Inquiry at the state department into the status of the Anglo-Cuban treaty, which is now before the commercial bodies of Havana for an expression of opinion as to its merits, has developed the fact that as far back as last December the state department, through American Minister Squires, made a most energetic protest with the authorities at Havana against the consummation of the treaty as it then stood. The principal objection was that it might operate in the future to prevent the conclusion of a treaty between the United States and Cuba in the nature of reciprocal favors to be bestowed upon the shipping of this country. Minister Squires has been instructed that the treaty would not be objectionable if a provision were attached that it shall not be invoked by the British government as a basis for demanding favored nation treatment, such as would be enjoyed by the United States in any treaty to be entered into in the future with Cuba.

A Wart or Pimple MAY BE CANCEROUS.

When a wart, mole or pimple shows any sign of tenderness it is a warning that bad blood is behind it. Often these places are on the face, hands, legs or other part of the body for years, and give no sign of change, uneasiness, and then with a little rough handling, a slight cut or bruise will develop into a sore that refuses to heal, and the sufferer finds himself, afflicted, with a cancerous ulcer.

About three years ago a blister came on the right side of my face. It grew rapidly and in spite of all efforts to heal it up, the pain was not very severe at first, but increased with the sore began to inflame and discharge matter. At times the place would scab over and appear to be getting well, but the scab would drop off leaving a raw, angry looking ulcer. I had almost despaired of ever curing it, when my attention was called to S. S. S., and after taking a few bottles the sore began to gradually grow smaller, the discharge stopped and the skin began to grow over it.

Oswego, N. Y. J. NO. ABRIE.

If the blood is pure and healthy these sores cannot exist. S. S. S. is the ideal blood purifier. It cleanses the blood of all poisons and impurities, making it strong and vigorous and able to supply the body with the strength and nourishment it needs. There is nothing that acts so promptly as S. S. S. in toning up the entire system, helping the general health and curing sores permanently.

Do not let a wart or pimple develop into a cancerous ulcer, but purify your blood with S. S. S. It is nature's remedy, purely vegetable, and while driving all poisons from the blood, will build up every part of the system. Book on the blood and any medical advice desired will be given without charge, to all who write.

## A Certain fabric,

very good of its kind, but for some reason a very slow seller, lay upon the shelves of department and dry goods stores all over the United States. The stores were overstocked.

The manufacturers were persuaded to try a small amount of advertising. The advertisements measured but twenty-eight lines, and appeared, once a month, in THE LADIES' HOME JOURNAL ONLY. This advertising within a comparatively short time exhausted the stock upon the shelves of department and dry goods stores throughout the country, and sent back orders to the manufacturers which amounted in seven months to one hundred thousand pieces more than the manufacturers could make.

These results were not obtained upon any startling novelty, but on a cloth which had been almost a drug on the market until the advertising gave it life. THE CURTIS PUBLISHING COMPANY PHILADELPHIA BOSTON CHICAGO

## TALK NO. 53

**Adjusting Lenses**  
The science of adapting lenses to the sight is a complicated and exacting one.

An optician must be thoroughly conversant with all the laws of light and physical optics. He must have had a thorough training in the intricate working of the human eye and its adjustments, for which purposes he must possess instruments of precision.

If you believe this work can be done by the man who goes from house to house with a few test lenses you are tempting knowledge by experience. A thorough, technical and clinical education then with years of practical experience and a thoroughly equipped and conveniently arranged optical office is at your service.

The work we are doing is of a highly satisfactory nature to our patients. Suppose you drop in and let's talk it over.

## ONE MORE GAME

**FRESNO WALLEPS PRESIDIO BY SCORE OF 5 TO 4.**

Locals have Bad Inning, But Win Out in Ninth—Other League Games.

Standing of the Clubs.  
Fresno ..... 5 1 ..... 833  
Stockton ..... 3 1 ..... 500  
San Jose ..... 2 2 ..... 500  
Presidio ..... 2 2 ..... 500  
Oakland ..... 0 5 ..... 000  
San Francisco ..... 0 5 ..... 000

"Brick-top" Kuhn broke up the game between Fresno and Presidio Sunday just when the fans had settled themselves for an extra-inning exhibition. It was in the last half of the ninth. Two men were out when "Dicky" Britt came to the bat and lined out a single. Kuhn was next up and he swung at a wide one in order to permit Britt to steal. When Britt stepped on second, and there were two strikes and three balls against the Clays, a large one came soaring up to the park. Sapi and the game was over. The ball sailed far out into left, Britt gamboled around for the winning run, and Kuhn had a two-base hit to his credit.

The final score was 5 to 4. It was Fresno's game, and it is no boast to state that Fresno outclassed Presidio. But that old "resno luck" was on hand as usual and the players were very near riding out on top of the heap. Frank O'Brien was on the slab for the Fresno team, and the soldier boys could do nothing with him. But three hits were gleamed by the visitors in the extra game. The score shows five, but the rules require that a hit shall be given to the batter who retires on being hit by a batted ball, so the fourth hit was not really against the pitcher. For the first five innings the visitors had not a chance. Meantime Fresno had bunched a couple of hits in two innings and had piled up four runs. Then came the sixth.

O'Brien walked Cusack. The next man up hit the ball right down the line to Cartwright, who tried for a double to Schimpff. The Dutchman dropped the ball and all hands were safe. The next batter popped up a fly that McKune ran in for. It was a little too much of a reach for Terry and the ends of his fingers refused to hold the ball. Then with the base full on errors came the inevitable hit, that shot over Moore's head and took a bad bound right into Clyn's shins. When the ball got back again into the diamond three men had scored. The fourth man scored on an attempt to complete a double from Cartwright to Kuhn.

That tied the score and from then on until the ninth, when Kuhn lined out his two-bagger there was nothing doing.

O'Brien p	3 1 1 10 3 0

Total ..... 32 5 7 2 26 7 4

Hit by batted ball.

Runs and Base Hits by Innings.

Presidio, runs ..... 0 0 0 0 4 0 0 4

Base hits ..... 0 0 1 0 1 1 1 0 4

Fresno, runs ..... 2 0 0 2 0 0 1 5

Base hits ..... 1 0 0 1 2 1 0 2 7

Summary—One out when winning run was made. Two base hits; Clyn's; rest base on errors. Presidio 2, Fresno 5; first base on called balls. Presidio 4, Fresno 3; left on bases. Presidio 4, Fresno 3; struck out, Meyer 5, O'Brien 14; passed balls, Myzell; wild pitches, O'Brien; time of game, two hours. Umpire, Burleigh.

**Diamond Flashes.**

Fresno really should have another run. In the fifth with two men out Clyn's hit a two-bagger and Moore started home. After the ball was in the hands of the fielder, Clyn's attempted to steal third and was put out, retiring the side. Burleigh claimed that Moore had not yet crossed the plate, but as a matter of fact Moore was nearly home before Clyn's left the second base.

O'Brien has fourteen strike-outs to his credit. The blonde boy unquestionably has the goods. His control is splendid and he mixes his curves up, too. In O'Brien and Hopkins Fresno has a pair of twirlers who are hard to beat.

Meyer, the Presidio slab artist, is a good pitcher. Burleigh's eye was not as true as usual Sunday and he did not give Meyer the corners every time. But

that did not excuse Meyer for making a baby of himself. By the time he has been away from home a few more trips he will do more pitching and less talking.

Of the Presidio team six are enlisted soldiers. The balance of the ball players employed at the Presidio. They have practically nothing to do but play ball. The team will be strengthened next week by the addition of Teely Raymond. Where the Presidios are weak at present is in hitting. Raymond and another man or two of his class will greatly strengthen the bunch.

The attendance Sunday was good. There was little sunshine and the bleachers were comfortable. As a result there was a big crowd in the 25-cent section.

**Errors Win for Stockton.**

San Francisco went against Stockton with a new pitcher named Obanion. As far as actual pitching was concerned he outclassed the redoubtable Ferguson, allowing but three hits while Ferguson was hit for double that number. But Obanion's support was very ragged, and seven errors behind him tell the story of the 7 to 2 score. The big horseshoe certainly remains with Cyrus Moreing.

The score: R. H. E.  
Stockton ..... 7 3 1  
San Francisco ..... 2 6 7

San Jose Also Victorious.

And the Grand Packers also came in on the winning end with the assistance of a bunch of errors. Somewhere when San Francisco and Oakland play at San Jose or Stockton they pile up from six to ten errors, but when they go against Fresno they overlook the error column almost entirely. The San Jose team won by a score of 8 to 2 being aided by eight errors. Score: R. H. E.  
San Jose ..... 8 2 8  
Oakland ..... 2 5 8

**SELMA HAPPENINGS**

**DEATH OF E. R. APPLING AN OCAO-GENARIAN.**

Chinaman Thrown from His Wagon and Dragged to Death Yesterday Morning.

SELMA, Sept. 11.—Edwin Ruthven Appling, aged 31 years, 5 months and 28 days, died at his home in this city yesterday morning, following sickness of several years. He suffered a stroke of paralysis over four years ago and had since been an invalid. He was an old resident of this place, well known and highly respected. The funeral was conducted from the M. E. Church, South, at 3:30 o'clock this afternoon, the Rev. Phillips, preaching the sermon.

Lee Mon, a Chinaman, was dragged to death by a runaway horse in the west part of town this morning. He was on an orchard truck coming to the packing house with fruit when the horse, driven by a whip and the animal jumped, throwing Lee out in front of the truck. In some manner his foot got caught and the Chinaman was dragged to death. A coroner's jury this afternoon found in accordance with the facts. The Chinaman will be shipped to Fresno for burial.

Mrs. A. P. Shepard and son returned to Fresno this morning after an extended visit with relatives.

W. L. Hedges came home from San Francisco yesterday. A. E. Wilson, who was with him in the city, will return tomorrow.

H. Lewald returned this afternoon from a business trip to the metropolis.

Peter Buck came home yesterday from a brief trip to Raymond.

P. N. Wissing a brother-in-law of T. E. Ludington, returned to Selma this morning after a week's visit here.

Nightwatchman J. Sweeney returned home from Bakersfield yesterday.

Work is progressing nicely on both the West Side school building and the Carnegie library building.

Jack McClurg was in town this afternoon on business.

W. R. Stammers returned from San Francisco yesterday.

**HANFORD BUDGET.**

**News Notes From County Seat of Kings.**

HANFORD, Sept. 11.—Antone Romero was found not guilty of disturbing the peace in Justice Meadows' court today.

The continuing witness, Matthew Rogers, who alleged that Romero chased him through a corn field with a revolver. In the course of the testimony it developed that the trouble occurred on land which was leased by the defendant, and there was no proof that he had transgressed the law.

Michael Rogers, aged 32 months and 18 days, died at the home of her parents, Mr. and Mrs. Walter Barnes of this city, last Saturday evening after an illness of less than a week.

The funeral services were held at the family residence Sunday, September 10, Rev. Walter Harris officiating. Interment in the Hanford cemetery.

Mrs. W. J. Newport and daughters arrived home this afternoon after an absence of three months in San Francisco, at Mount Shasta and other points of interest.

Grape-picking has commenced at the Lucerne vineyard and the first carload of grapes was received from there today at West & Son's winery in this city.

**REAL ESTATE TRANSFERS.**

E. R. Holton and wife, to Virondia Livmore, a grant of 5% of 54 1/2 of section 25, T 15 S, R 21 E, \$30.

A. E. McLeod to Ida M. Humphrey, a grant of lots 27 and 28 in block 22 of Laton, \$100.

Aldo DeWitt to Oliver Qualls, a quitclaim to half interest in the Blue and Gray mine in the Big Dry Creek district, \$10.

Ethel McFee to J. Ira Sidwell, a grant of lots 15 and 16 in block 45 of Coalinga, \$100.

Pacific Improvement Company to lots 9, 10 and 11 of block 49 of Coalinga, \$225.

Fred E. Messenger and wife to Simon Bach, a grant of lots 23 and 24 in block 18 of Grand Avenue park, \$300.

**THE SUPERVISORS.**

Appointment of Statistician For Foot-hill District.

The supervisors yesterday received from City School Superintendent McLane a requisition from the school board for the levy desired by the Fresno City School district. The district will have to raise \$39,000 for the primary and grammar departments and \$13,000 for the high school.

On motion of Supervisor Beall, S. E. Mill of Temperance Colony was appointed to do the statistical work in the second supervisor district for the state agricultural society. The second district extends from Belmont precinct on the northeast of Fresno city east and north to the San Joaquin river and foot-hills.

TYPESETTING MACHINE CONTRACT

President Roosevelt has overruled the report of the commission investigating the government printing office, so far as it recommends rescinding the Lanston typesetting machine contract, evidently for the purpose of thereby re-bidding and punishing the Mergenthaler Linotype Company for making false and wanton charges of corruption. The commission reported that the purchase of seventy-two Lanston Monotypes was made without any adequate test of the comparative merits of the two machines, and was an imprudent exercise of business judgment. As a matter of business policy, the president agrees that the commission was right, but he finds, first, that the contract, having been made, can not be rescinded except for fraud, and, second, that the Mergenthaler company was guilty of reprehensible conduct in preferring formal charges of corruption, of whose truth no evidence could be found.

As a business proposition, there is no question that the report of the commission is right. Seventy-two Lanston Monotypes, with no Mergenthalers, is not a proper equipment for the government printing office. There are many printing offices using both these machines, and some small offices using the Lanston alone, but the only large office using the Lanston exclusively is that of the New York Sun, in which the reason is purely personal. On account of personal hostility to some of the stockholders of the Linotype company, the Sun persisted in setting type by hand, long after everybody else was using the Linotype, and then installed the Lanston machines, when they were scarcely out of the experimental stage, and were manifestly inferior to the already perfected Linotype. Since then, the monotype machine has been much improved, until it now rivals the Linotype, and for some work is superior to it. But no private and unprejudiced owner of a great establishment like the government printing office would have thought of equipping it, by one contract, exclusively with the monotype machine.

The Linotype machine, as is well known, casts an entire line of type in one piece. The Lanston monotype casts each letter separate, like hand-set foundry type. Neither of them is a type "setting" machine, since both make their type as they go, and use each type but once. The Linotype is operated by one man. The monotype takes two, or sometimes three men to two machines, or five men to three machines. The Linotype is therefore the cheaper and quicker to operate. For all "straight matter"—that is, newspapers, books, etc., set in straight columns and paragraphs, in one size of type, the Linotype is unquestionably better. More than half the government's printing, including the Congressional Record, is of this sort, and at least half the machines in the office should be Linotypes; especially as, of the remainder of the work, for which the Linotype is not preferable, a considerable part can be handled by no machine, and must always be set by hand. But for certain sorts of work, of which the government has a great deal, the monotype is preferable. It is much preferable for complicated matter, in which many styles of type must be used in the same lines or paragraphs, and it is better for tabular statistics, such as the census reports. For some work, too, which could be set with equal facility on either machine, the ability to make corrections of single letters, the deeper type face, and the greater perfection of "planing," would give an advantage to monotype composition for the making of electrotypes. Both machines ought to be used in the government printing office, and both should have been thoroughly tested, in moderate numbers, before stocking the whole office with a single style. It was bad business, and is only one of the symptoms of chronic business inefficiency in the government printing office.

AN UNWARRANTABLE EXCLUSION

Dr. Hayden, Health Officer, last night excluded the reporter of an evening contemporary from a public meeting of the Board of Health, held in his office, on the ground that the reporter was personally objectionable to him, and that he "paid the rent of his office." Reporters from the other papers were not excluded, and the meeting was treated in all respects as a public and official meeting. There is of course no question of the right of Dr. Hayden, as an individual, to exclude any person from his private office, with or without good reason. But if he insists on exercising that right at times when a public body is holding a public meeting in his office, it follows that his office is not the place to hold public meetings. Public meetings of official bodies are open to the public, not as a favor, but as a right. The personal dislikes or resentments of an employee of the Board of Health toward any individual can not in the least affect the right of that person to attend the public meetings of the board. It is particularly important to the public that this right be exercised by newspaper reporters. The reporter does not attend a meeting by reason of any personal interest in it, but because his attendance amounts practically to the attendance of all the readers of his paper. It is physically impossible for all the citizens to be present personally at the meetings of official bodies, and it makes very little difference if none of

them attend, so long as the reporters of the press are there, to make public to all the people, the next day, what was done. To exclude the reporter of one paper, while admitting the others, is not merely to discriminate unfairly between business institutions, but it is to deprive the readers of the excluded paper of their right to be informed, through it, of the official proceedings of a department of the city government. If Dr. Hayden chooses to invite that department to hold its official meetings in his private office, that office becomes, for the time being, a public office, to which public admission is a right, and not a favor. The instant Dr. Hayden undertakes to exercise the right of private exclusion, in that office, he thereby renders it an improper place for a public body to meet, and the board should at once adjourn to the city hall. Otherwise, what is to prevent the doctor from exercising his undoubted private right to exclude a member of the board itself? The right of Reporter James to be present at last night's meeting, so long as that meeting remained public, was just as real and just as important as the right of the members of the board themselves, and his exclusion, on a pretext of private right, was an unwarrantable and intolerable interference with the proceedings of the official board by which Dr. Hayden is employed. We can only suppose that the doctor lost his temper and forgot himself, and that the board members, for the moment, failed to realize the seriousness of the offense, and their duty in the matter—which was to adjourn at once to some public place. It becomes necessary, however, occasionally to remind public officials that publicity is a right, and that newspaper reporters, seeking public information, are not asking for favors.

FAIT THE HYPONOTIST.

Psychic Phenomena Entertaining Barton Audiences This Week. Professor Fait, the hypnotist, opened a week's engagement at the Barton Sunday night, and on that evening and last night as well entertained fair-sized audiences with exhibitions of psychic phenomena. Assisting the professor was a vanderbilt trio of mediumistic ability. Miss Genevieve Osborne sings a couple of songs, and Bert Thatcher, who is totally blind, plays several musical instruments and sings as well, being assisted by his little son, who appears on the bills as "Young American." Moving pictures and views of California scenes make up the program.

Yesterday afternoon Professor Fait put his daughter into a hypnotic sleep in the window of Reddy's store on Mariposa street. From there he had her conveyed to the Barton and until the performance began she was on a cot in full view of the audience. In beginning the entertainment he first brought her out of her sleep, after calling a committee to the stage and giving them ample demonstration that she was in the hypnotic state.

Afterward the committee bound the professor hand and foot and put him in a curtained cabinet which concealed him from view. He liberated himself in a few minutes, without breaking the seals on the knots. Closing the same act he was locked into the "Resto Capio," in which both wrists were held at length and packed to a board, an iron band being fastened to his head, and he was surrounded by his audience and his ankles. The curtains were drawn and a moment later he walked out free. This was the best feat of the entertainment.

SIGNED FRIEND'S NAME.

Louis Bellis Did Not Think Forgery a Crime. Louis Bellis is in jail because he didn't know it was wrong to sign a friend's name to a check. Several weeks ago Bellis wanted to borrow \$25 so he went to the Farmers' National bank with B. Boss, a farmer employer, and Boss signed the note as security. Running short of funds, Bellis decided he wanted \$10 more, so about two weeks later he called at the bank again. He was given a blank note for \$25 to sign. In place of getting Boss's signature he himself signed Boss's name to the paper for \$35, including the \$25 that he had previously borrowed. He returned to the bank the next day, handed Cashier Shoemaker the note and was given \$10 and the old note for \$25, which he destroyed.

The bank in the course of three weeks became suspicious of the note and to the signature attached and called upon Mr. Boss. He said he did not know that there was a note in the bank at that time there for \$35. Bellis has obtained various sums from the bank by securing the name of Boss on the notes. In January he borrowed \$125 on a note signed by Boss. The bank accepted this one without any objections. Bellis is in the main business, having for a large firm in Amsterdam, Holland.

When seen at the jail Bellis stated that he meant nothing by signing Boss's name to the note, as he had always secured his signature upon asking and did not intend to defraud the bank. He said he needed this money for railroad fare as he had some rushing business in San Francisco and that as Boss was out of town could not wait for his return.

Bellis is of Scandinavian birth, good family, and is well educated. He has not been arraigned yet, but will probably be up today.

Want New Trial in Big Jim Case. Judge Church's attention was taken up in the morning court yesterday afternoon with the hearing of a motion for a new trial of the Big Jim will contest. Attorney W. D. Tupper on behalf of the Chinese claimants had submitted a bill of errors in the proceedings before the jury that awarded in favor of Schweizer. Tupper's chief points were that Dr. Davidson expected testimony that Big Jim was too weak to sign the Chinese will two days before the doctor had called upon him, was incompetent, and that the showing that Big Jim could not write Chinese was not sufficient. Attorney M. K. Harris resisted the motion for a new trial, on behalf of Schweizer. The court took the motion under advisement.

SPECIAL W. C. T. U. MEETING.

Ground Mapped Out for Convancing Committee. A special meeting of the W. C. T. U. was held yesterday afternoon at the home of Mrs. Anna M. De Yo. The chief business was arranging for the state convention to be held in October, and the following members were appointed as committees to have charge of the different details: Mrs. M. H. Abbott, entertainment and decorations; Mrs. M. F. Norwood, hotel notes; Mrs. H. F. Wakefield, reception, bureau of information and postoffice; Mrs. J. E. Hutchinson, music; Mrs. Anna M. De Yo, press; Mrs. W. M. Ewing, printing banner and badges; Mrs. E. Ballagh, pulpit notices; Mrs. Giffing, check room.

THE GRAND'S NEW BILL.

Clean and Clever Vaudeville at the Popular Little Theater. The Grand theater this week has on one of the cleanest and best vaudeville shows that money can get. The program is of high class arrangement in every respect. The circuit is improving each month and is always aiming at the best talent that can be found. Florida Sanford last night opened the evening's amusement with a French Horn solo, which was well rendered. She also entertained the audience with a xylophone solo entitled, "Sweetest Girl in Dixie," which was really very sweet. The Wilsons performed very cleverly in their song and jig sketch. Geo. Keane, the popular tenor, sang "Dear Old Girl" in the illustrated songs. Bert White rendered an excellent turn in his act with Italian jokes and songs, and was encored several times.

DEATH OF MRS. BITTLE.

Daughter of O. J. Meade Passes Away in Los Angeles. Word was received here yesterday of the death in Los Angeles Saturday of Mrs. J. A. Bittle, daughter of O. J. Meade, the Southern Pacific detective. She had been ill for several months, but bore her suffering with fortitude and even cheerfulness. She was reared in this city where she has many friends, who will be deeply grieved to hear of her untimely demise. She was 27 years of age and was married three years ago. The body will be shipped to this city today, where the funeral will take place.

PERSONAL MENTION.

"Dead Shot" Ward with his huge sombrero returned yesterday from Sacramento where he took part in the Native Sons parade. Alex Gordon, land agent of the Sacramento bank, came down yesterday from Sacramento and will be in this vicinity for a week, looking after the bank's property interests.

Captain W. A. Nevills was in town yesterday. Johannes Reimers, the landscape artist, was in town yesterday.

Staff Captain Watt of Sacramento will deliver a lecture at the Salvation Army hall on Mariposa street this evening, taking as his subject, "Trophies of the American Army." The lecture will be a narrative of the heroic deeds and the prodigies of the large cities, in which the staff captain has been stationed. Captain Watt was a successful business man before joining the army, and has had many experiences in working among the lowly in the slums.

CAPITOL'S FAULTY DESIGN.

Why It Fails to Conform with Essentials of Great Architecture. It is not the contention even of enthusiasts that the Capitol at Washington is, or ever will be, a complete and perfect whole. There is little hope that it will ever be entirely finished, and still less that it may attain perfection. Apropos of the dome, for instance, it may be recalled that the rhetorical and fastidious Ruskin does not admit of iron as a constructive material, and on those grounds inveighed disdainfully against the spire of Rouen Cathedral. Turbidity and pettishness aside, there are other reasons why the building fails to conform with the essentials of really great architecture. As far as the interior is concerned, the situation is anything but sublime, and it is hence a pleasure to know that Mr. Elliott Woods, superintendent of the Capitol building and grounds, has under advisement a proposition for the rehabilitation of the rotunda. Yet the faults of the Capitol appear in a measure inevitable to those who know and treasure its history. Looked at broadly, they are not faults, but merely venerable shortcomings incidental to growth and development. Considering the importance of the prospective alterations and extensions, the evolution of the building seems to have entered upon an apparently final stage, and it is gratifying to know that Congress, the superintendent and the consulting architects realize the dignity and seriousness of the task in hand. Something of the old simplicity should guide and chasten each effort. To this simplicity should also be added a reverence for those traditional ideals and aspirations which, happily, a country's or an individual's most cherished heritage.

The panorama, once its several features are supplied, will present a majestic and inspiring spectacle. Grouped about the spacious court will be five superb structures—the Capitol on the west, the Senate and House office buildings to the north and south, and the Congressional Library and its companion on the east. To the average eye the Capitol will offer little change; there will merely be a grateful gain in repose and proportion. It will, as before, continue the focal point, the keynote of the composition. Despite its immensity, there appears to be nothing that is pompous or pretentious in the scheme as at present outlined.

It is but the logical fulfillment of plans, long since formulated, which are the fitting symbol of a subsequent national and territorial expansion. Century Magazine.

A Jewel of a Jurymen. Lawyer—Have you formed any opinion on this case?  
Jurymen—No, sir.  
Lawyer—Do you think after the evidence on both sides is all in, you would be able to form an opinion?  
Jurymen—No, sir.  
Lawyer—You'll do.

Conditions in the Steerage. In the arrest of the captain of an Atlantic steamer in New York the other day the fact was disclosed that the United States government was determined immigrants should arrive in the country after voyages fairly comfortable. An inspector had made the trip in the steerage of this vessel and found the quarters about as comfortable as those in a cattle car. The food was execrable and the general conditions miserable beyond faking. The incident also reveals the intention of the government to force the steamship companies to live up to their promises—Cleveland Leader.

No Strong Ones There.

"Well," said D'Auber, whose masterpiece had been rejected, "I never realized the truth of the old proverb until I saw this exhibit."  
"What proverb?" inquired the friend.  
"The weakest must go to the wall!" Philadelphia Leader.

## School Book Prices Lowest Here

That this store dictates school book prices has been proven conclusively to the satisfaction of the public. This store, the only one in Fresno that had the courage to publish complete book lists and prices. Today the little fellows will bristle up and try to imitate the big store—but they can't fool the buying public. They know the big store's policy. Today we undersell any book store in Fresno, no matter how cheap they sell. We make the prices, they must follow.

## THE FRESNO MORNING REPUBLICAN

## DEATH OF JOHN E. WHITE.

After Seven Weeks' Illness Well-Known Citizen Passes Away.

At 7:30 o'clock Sunday morning, John E. White, of the firm of Neil, White & Company, died of typhoid fever at his home at 1021 Sacramento street. He had been sick for the past six weeks and had been given up several times. Last Sunday a week ago he commenced to improve and grew stronger, but on Thursday he suffered a relapse from which he never recovered.

Mr. White took his vacation about the first of July and went to Santa Cruz for three weeks. He was not feeling very well before he left and thought the change might better his condition. He was in the water considerably while there, and a few days before his return home he contracted a severe cold. He

John E. White.

## BEET SUGAR PROJECT

WHAT IT MEANS TO FRESNO COUNTY.

Advantages Set Forth in a Circular by the Real Estate Board.

The Real Estate Board, which at its meeting Saturday night, endorsed the beet sugar factory enterprise, has prepared the following circular, telling what a beet sugar factory means for Fresno county. The circular is as follows:

An investment of about \$1,000,000 of foreign capital.

An annual expenditure of from \$600,000 to \$700,000 by the factory for beets and labor; all of which is left in Fresno county.

The development of our vast resources and furnishing a home market for a new and staple product at a fixed price, for a term of years, and at a price that is remunerative to the grower.

It creates a market for a product which means a greater diversity, strengthening our agricultural districts, bringing greater prosperity and enhancing the value of the lands.

It will develop much of the uncultivated lands; it will attract the colonist from the East who will settle in a country where he can plant a crop that will bring him good returns the first season. Instead of waiting from three to five years, as is the case with vines and trees.

It makes no difference how many beets are grown; your crop is sold before it is planted and you are not compelled to go into the open market to find an outlet for your product.

The fact that conditions in this county are favorable to successful and profitable beet culture is evidenced by the fact that these people are willing to come into this county and invest this enormous capital. They are pioneers in the business; the experiments they have conducted proved highly satisfactory.

The growing of beets must be attractive to the farmer, otherwise the factory would not be warranted in taking chances.

The location of a factory and the growing of beets will bring a great deal of new labor into the county, and will be extensively employed prior to beginning of the fruit season. This in itself will help us to solve the labor condition which confronts us every season.

To bring this industry into this county it will be necessary that the farmers agree to contract for at least 2500 acres of beets for three years.

This company will furnish high grade agriculturists to instruct the farmers how to grow beets successfully. The grower will be called upon every few days and assisted in every way possible to obtain the greatest possible results.

The success of the enterprise is dependent upon the success of the farmer.

To secure this industry it is extremely important that prompt action be taken to secure enough good acreage that the factory requires. Every citizen of Fresno county who has the welfare and prosperity of our county at heart should constitute himself a committee of one to help work this out.

Other communities are seeking this industry; one very desirable section guaranteeing these people 5000 acres of beets for a period of years.

The whole thing briefly summed up is—do we want this capital invested in this county? Here is an opportunity to show our enterprise.

Contracts for sugar beet growing can be had from the real estate agents and the Chamber of Commerce at Fresno, also the real estate agents and banks in towns of the county. Contracts should be made and signed in duplicate. Forward both copies to the Fresno County Chamber of Commerce, Fresno, who will see that the company's contract is executed and returned to the grower.

## THE POLICE COURT.

Motley Crowd of Petty Law Breakers Up Yesterday.

E. Willis and Charles Nichols, vagrants, went before Judge Briggs yesterday and had a tale to tell. Willis said that he came to town a few days ago to find work, but no work had called for him and so he hadn't found anything to do.

His partner, Nichols, said he couldn't find the packing houses that wanted men and as it was too far to walk to the vineyards he didn't trouble himself a bit to go out. He said he wasn't fond of gloaming grapes as it was hard on his hands and back. The judge gave them each a thirty days' fender.

Ed. Posker, alias Conker, was up for disturbing the peace and his sentence was suspended, as the judge thought he had had sufficient punishment for the time. His eyes were both discolored and his face badly twisted.

Thomas Randolph, arrested for vagrancy, was given ten days on the lawn mower. In the meantime the judge will investigate the cause of his having five razors when he landed in town.

Ed Copland, a drunk, was landed for ten days in the county jail.

W. H. Raymond, a vag, was told to go out and go to work and not to return to town for thirty days.

Peterman was fined \$5 for violating the hitching ordinance.

Bill Summers was given a few minutes in which to leave town. He took the hint and left.

L. A. Austin, arrested for displaying a union card in his shop and held on a charge of embezzlement, was arraigned yesterday and bail fixed at \$1000. The bail was furnished.

Dan Nolan, arrested last week for grand larceny, was held for a preliminary hearing with bail fixed at \$1000.

John and Jane Martin, arrested for allowing their chickens to run loose, were liberated yesterday.

Frank Mourvel, a vag, was released as he promised to find work immediately.

Alex Kels, arrested for a felony, was arraigned and bail fixed at \$1000.

C. J. Strand, a drunk, was given ten days in the county jail.

S. Kamoiro, K. Fukumoto and K. Hina, Japanese, arrested for disturbing the peace, were fined \$5 each.

Schilling's Best are not extravagant; quite the contrary. Teas and coffees good-enough, baking-powder, flavoring extracts and spices pure and best and yet economical; soda common.

special session of the privy council to-  
day lasted four hours. A bill was pre-  
sented, only a report from the cabinet  
ministers. Premier Kato making an  
extended statement of the peace negotia-  
tions.  
According to the constitution, a treaty  
with other powers requires to be sub-  
mitted to the council before ratifica-  
tion. It is unusual to hold a special  
sitting for simply making a report on  
diplomatic affairs before a treaty as-  
sumes a form ready for ratification, and  
the sitting today, without a special bill,  
was rather unexpected.  
Opposition political parties have ap-  
pointed an extensive committee to fully  
report on sufferings alleged to have been  
caused by the police during the recent  
rioting. The progressives and their lo-  
cal branches continue to press resolu-  
tions against the government. The shiba  
branch condemns the government's as-  
sumption of the power to suspend news-  
papers, declaring it to be wholly un-  
constitutional. Quiet, however, prevails  
in Tokio.

The resignation of Home Minister  
Yoshikawa has not been accepted, but  
its acceptance, it is expected, will take  
place later.  
The prefectural governors have assem-  
bled at Tokio where they are reporting  
upon provincial conditions and are being  
instructed upon the policy they must  
adopt when dealing with disturbances  
of the peace.  
A mass meeting was held at Osaka  
this afternoon when resolutions were  
passed denouncing the peace policy of  
the government.  
The government has again suspended  
the Nihonki of this city from publication.  
On September 9th the Japanese com-  
mander in Northern Korea dispatched  
the bearer of a flag of truce to the Rus-  
sian camp, but the Russians refused to  
treat with the Japanese owing to the  
non-arrival of any notice that an armis-  
tice had been declared.  
There has been recent skirmishing in  
Manchuria. On September 9th two com-  
panies of Russian infantry with two  
guns opened an attack but were out-  
flanked by the Japanese and fled in dis-  
order, leaving forty dead on the field.  
The Official Gazette publishes a state-  
ment, based on medical evidence, of the  
use of dum dum bullets by the Russians  
in the battle of Vladimirov and other en-  
gagements on the Island of Sakhalin.  
It also publishes charges of Russian  
abuse of the Red Cross flag and alleged  
cruelty to Japanese killed in battle.

**TOKIO, Sept. 11, (1:30 p. m.)**—A  
mass meeting at Osaka passed the fol-  
lowing resolution without hindrance on  
the part of the police:  
"The peace that has just been con-  
cluded between Russia and Japan re-  
flects the fruits of victory and sows seeds  
of future complications and danger. The  
government's high-handed and uncon-  
stitutional measure has resulted in unex-  
pected disturbance to the peace of the  
city in which the mikado resides. The  
empire's honor has been soiled and the  
spirit of the constitution lost. Never  
has our country been brought to face  
greater danger. Therefore be it resolved  
that we hope the humiliating peace  
agreement will be broken and the gov-  
ernment will resign."  
**TOKIO, Sept. 11, (8 p. m.)**—In ac-  
cordance with established usage, the  
cabinet ministers have presented an official  
statement to the mikado explaining the  
necessity of instituting martial law at  
the capital and at the same time asking  
the imperial judgment as to whether  
they should remain in office or retire.  
The emperor's reply, which was made  
today, advises them to retain their re-  
spective posts.

**Last of the War.**  
**ST. PETERSBURG, Sept. 11**—Dis-  
patches from Tokio to the effect that  
ships which are carrying contraband of  
war are not subject to seizure during  
the armistice is declared to be incorrect.  
It was said today that such vessels are  
subject to previously existing conditions  
until the exchange by telegraph be-  
tween St. Petersburg and Tokio of news  
of the ratification of the peace treaty.  
The armistice will be fully effective in  
all other directions.

**ST. PETERSBURG, Sept. 11**—A dis-  
patch from Godzyani of September 8th,  
only a small portion of which was al-  
lowed to pass the censor, says that on  
August 14th there were 20,500 sick and  
wounded officers and men in all the mili-  
tary hospitals.

**GODZYANI, Manchuria, Sept. 11**—  
Major General Ovanovsky, quartermas-  
ter general of General Linvitch's staff,  
has been appointed plenipotentiary to  
meet the Japanese representatives to  
arrange the terms of armistice.  
**GODZYANI, Manchuria, Sept. 11**—It  
is announced that General Ovanovsky  
and Russian representatives, respectively  
General Linvitch and Field Marshal  
Ovama, will meet September 13th to es-  
tablish a line of demarcation between  
the two armies. Each general will have  
a small escort. The Chinese report that  
the Japanese army at Shantung will re-  
tire to Mukden in ten days.  
**NEW YORK, Sept. 11**—The departure  
of the peace commission for Japan,  
which has been set for Thursday, may  
be delayed by the illness of Baron Ko-  
mura, who is confined to his apartment  
at the Waldorf Astoria. The baron's  
condition since Saturday has caused  
some anxiety and a recurrence of high  
temperature and fever today resulted in  
calls for a consultation of physicians.  
Dr. William R. Pritchard said morning  
congestion had manifested itself and  
the gall bladder was affected or ob-  
structed.  
The reception to Witte and Baron de  
Rosen, the Russian peace envoys, ar-  
ranged for tomorrow morning at the  
Produce Exchange has been cancelled  
at the request of the envoys who begged  
to be excused on account of unexpected  
and pressing business. Witte will sail  
for home tomorrow afternoon.  
**The Peace Envoys.**  
**NEW YORK, Sept. 11**—Witte and  
Baron Rosen, the peace envoys, went  
to West Point military academy today,  
traveling as guests of J. P. Morgan in  
his yacht Corsair.  
**WEST POINT, Sept. 11**—The Rus-  
sian envoys were met at the West Point  
landing by General Mills and his staff  
and a detachment of cavalry. There

was a salute of sixteen guns and a  
review of the corps of cadets. After be-  
ing conducted through the various build-  
ings the Russians again went aboard the  
yacht Corsair and were conveyed to  
Morgan's country seat at Highland  
Falls where they had dined.  
**Commander Takahira and Colonel Ta-  
kahara of the Japanese navy and army  
respectively visited West Point earlier  
in the day.**  
**Tokio Disturbances.**  
**OYSTER BAY, Sept. 11**—A definite  
resume of the disorders in Tokio is given  
in a cablegram from Minister Gris-  
com to Secretary of State Root today.  
The cablegram follows:  
**Tokio, Sept. 11**—The violence to a  
few foreigners and attacks on Christian  
churches, reported in my previous  
cablegrams, should not be considered to  
indicate any general foreign or anti-  
Christian feeling. The former was quite  
incidental and the latter due to sporadic  
antagonism to the Russian church  
and some native Christians. The mob  
offered to spare one American church if  
the minister could show an American  
flag, but unfortunately he could not.  
Newspapers have during a few  
months raised popular expectations so  
high that intense dissatisfaction with  
the terms of peace result. Sentiment  
among army, navy and mobility, how-  
ever, is understood to be more conser-  
vative. Six newspapers have been sus-  
pended. Martial law will probably con-  
tinue for some time, thus insuring quiet.  
Meanwhile the legation guard of twelve  
soldiers will continue.

**Diplomatic Changes.**  
**LONDON, Sept. 11**—A dispatch to a  
news agency from St. Petersburg says  
it is reported there that Takahira, the  
Japanese minister at Washington will  
be appointed minister of Japan at St.  
Petersburg.  
**NEW YORK, Sept. 11**—Minister Ta-  
kahira, when shown the dispatch from  
London reporting that he would be ap-  
pointed minister of Japan to St. Pe-  
tersburg, said: "I have heard nothing  
of such appointment. I know nothing  
about it."

**ST. PETERSBURG, Sept. 11**—The re-  
port current here lately regarding the  
appointments of diplomatic character in  
which the names of Takahira, Japanese  
minister at Washington, and Korostovitz,  
former secretary of Russian legation at  
Peking, were used, is declared to be an  
excellent quarter today, to be quite pre-  
mature. No decision on the subject had  
been reached.  
**Ex-Convict Was Killed.**  
**WASTONVILLE, Cal., Sept. 11**—A  
shooting affray took place on Main  
street yesterday in which James Wat-  
son, an ex-convict, was shot by M. Gar-  
cia. Garcia fired three shots into the  
body of Watson, who will probably die.  
The murderer after an exciting chase  
was captured by Constable Carr and  
lodged in jail.

**ST. PETERSBURG, Sept. 11**—Am-  
bassador Meyer started today for Ber-  
lin and Paris, whence he will return  
home on leave of absence at the end of  
September.  
**SIMLA, India, Sept. 11**—Timely rains  
in the Rajputana and other drought  
stricken districts are relieving to some  
extent the failure of the crop and a  
possible famine.

**YOU'LL BE CURED**  
Of any ailment of the Stomach, Liver,  
Bowel or Kidney, quickly if you'll  
only resort to the Bitters at the first  
symptom. Thousands have found this  
true during the Past 50 years.  
**HOTSETTER'S  
STOMACH BITTERS**  
should therefore have a permanent place  
in every home because it is absolutely  
safe and can be relied on in cases of  
Indigestion, Dyspepsia, Cramps, Cos-  
tiveness, Heartburn or Female Ills.

**INNOCENT MAN  
WAS A VICTIM**  
**CONFESSION OF SUICIDE PROVED  
HIS GUILT.**  
Tramp Who Was Hanged For Girl's  
Murder Was Convicted on Cir-  
cumstantial Evidence.  
**MINOT, N. D., Sept. 11**—"When my  
lifeless body is found, notify my moth-  
er, Mrs. Katherine Herzog of Grand  
Ohio. See the enclosed letter which  
will reveal my identity and the awful  
secret of my wretched life. I can en-  
dure it no longer."  
The foregoing note was found by  
Frank Byer, who lives on a claim near  
Hidden Wood, this county. It was  
written by one of his harvest hands.  
The writer, who signs himself Charles  
Herzog says:  
"Dear Mr. Byer: In the early seven-  
ties, Charles Sterling, supposed tramp,  
was tried for the murder of Lizzie Gron-  
bacher, a beautiful young woman resid-  
ing near Youngstown, in Mahoning coun-  
ty, Ohio. He was convicted on cir-  
cumstantial evidence and was hanged for  
the crime in the county jail at Youngs-  
town.  
"Charles Sterling was an innocent  
man. I am guilty of the murder of that  
young girl."  
"CHARLES HERZOG."  
**YOUNGSTOWN, Ohio, Sept. 11**—The  
murder of Lizzie Gronbacher occurred  
in 1874 and Charles Sterling, tramp,  
was hanged for it in 1874. Sterling  
maintained his innocence to the last.

**THREE JURORS CURED**  
Of Cholera Morbus With One Small Bot-  
tle of Chamberlain's Colic, Cholera  
and Diarrhoea Remedy.  
Mr. G. W. Fowler of Hightower Ala.,  
relates an experience he had while serv-  
ing on a petit jury in a murder case at  
Edwardsville, county seat of Cleburne  
county, Alabama. He says: "While  
there I ate some fresh meat and some  
sour milk and gave me cholera mor-  
bus in a very severe form. I was never  
more sick in my life and sent to the  
drug store for a certain cholera mixture,  
but the druggist sent me a bottle of  
Chamberlain's Colic, Cholera and Dia-  
rrhoea Remedy instead, saying that he  
had what I sent for, but that this medi-  
cine was so much better he would rather  
send it to me in the box I was in. I  
took one dose of it and was better in  
five minutes. The second dose cured  
me entirely. Two fellow jurors were  
afflicted in the same manner and one  
small bottle cured the three of us." For  
sale by all druggists.

**RESOLUTION ORDERING WORK.**  
Resolved, That the public interest and  
convenience require the work herein de-  
scribed and the Board of Trustees of the  
City of Fresno do hereby order the  
following street work to be done as con-  
tained in a Resolution of Intention No.  
48, to-wit:  
That all of that part of Silva street here-  
in mentioned be abandoned and the  
width of said street be increased to  
lying between the north general line of  
Silva street and adjoining the south line  
of lots nineteen (19) and twenty (20) in  
block 1 and lots nineteen (19) and twenty  
(20) in block 2 of Irvington's Second  
Addition to the City of Fresno, and com-  
mencing for the east line of said street  
(30) foot strip on the west line of Mariposa  
street, thence west half of said strip  
of thirty (30) feet to the east line of  
the alley running north and south  
between the City of Fresno and the  
Addition; thence commencing on the  
west line of said alley in the said block  
running west half of said strip of thirty  
(30) feet to the east line of "U" street,  
where said street runs north and south  
between the City of Fresno and the  
Addition; thence commencing on the  
"U" street, running west a full width of  
thirty (30) feet to the east line of the  
alley which runs north and south  
through the block 1 of Irvington's Second  
Addition, and thence west half of said  
west side of the alley in block 1 of Ir-  
vington's Second Addition, running west  
a full width of thirty (30) feet to the  
east line of Fresno street, where the  
same runs north and south between Ir-  
vington's Addition and Irvington's Sec-  
ond Addition, being four distinct pieces  
of property thirty (30) feet in width and  
of an equal depth (30) feet, and the lots  
nineteen (19) and twenty (20) in  
block 2 (2) of Irvington's Second Ad-  
dition, and lots nineteen (19) and twenty  
(20) of block 1 of Irvington's Second Ad-  
dition.  
The clerk of this city is hereby directed  
to publish this resolution for two (2)  
days in the Fresno Morning Republican,  
a daily newspaper published and regis-  
tered in this city, which said paper is  
hereby designated for that purpose. The  
said clerk is also directed to post this  
said resolution conspicuously for five  
days on or near the Council chamber  
door.  
And it is hereby further resolved that  
the above work be ordered to be done  
at the above portion of Silva street by  
this resolution abandoned for the con-  
struction of a new street, to-wit: Silva  
street, and make the said street of the  
expense of grading said portion of Silva  
street, or maintaining the same as it  
is now, and the cost of the street or the  
cost of this city.  
I hereby certify that the foregoing res-  
olution was passed by the Board of Trust-  
ees of the City of Fresno, California,  
on the 8th day of September, 1905, by the  
following vote:  
Ayes: Trustees Collins, Keisker, My-  
ers, Statham, Shaw, Falkenstein, Ander-  
son, Sunderlin.  
Noes: Trustees none.  
Absent: Trustees none.  
City Clerk and ex-officio Clerk of the  
Board of Trustees of the City of Fresno,  
California.

**Summons.**  
In the Superior Court of the County  
of Fresno, State of California,  
No. 11165—Department No. 1.  
Anna F. Normant and Frank Normant,  
her husband, Plaintiffs, vs. M. Arakjian,  
Jacob Arakjian, John Doe, Rich-  
ard Roe, Sam Summons and Jennie  
Doe, Defendants.  
The People of the State of California  
send greeting to M. Arakjian, Jacob  
Arakjian, John Doe, Richard Roe,  
Sam Summons and Jennie Doe, Defend-  
ants.  
You are hereby directed to appear  
and answer the complaint in an action  
entitled as above, brought against you  
in the Superior Court of the said County  
of Fresno, State of California, within  
ten days after the service on you of  
this Summons; if served within this  
County; or within thirty days if served  
elsewhere.  
And you are hereby notified that un-  
less you appear and answer as above  
required the said Plaintiff will take  
judgment for any money or damages  
demanded in the Complaint, as arising  
upon contract, or they will apply to the  
Court for any other relief demanded in  
the Complaint.  
Given under my hand and seal of the  
Superior Court of the said County of  
Fresno, State of California, this 14th  
day of June, A. D. 1905.  
(Seal.)  
By J. E. Cartwright, Deputy Clerk.  
M. B. Harris and E. M. Harris, Attor-  
neys for Plaintiffs.

**Notice to Creditors.**  
In the Superior Court of the County  
of Fresno, State of California,  
In the matter of the estate of John  
K. Tashjian, deceased.  
Notice is hereby given by the under-  
signed, administrator of the estate of  
John K. Tashjian, deceased, to the cred-  
itors of, and all persons having claims  
against the said deceased, to exhibit  
them with the necessary vouchers, with-  
in four months after the first publica-  
tion of this notice to the said adminis-  
trator at the office of A. M. Drew,  
Temple Bar building, in the City of  
Fresno, County of Fresno, State of Cal-  
ifornia, the same being the place for the  
transaction of the business of the said  
estate.  
SENEARL K. TASHJIAN,  
Administrator of the estate of John K.  
Tashjian, deceased.  
Dated August 24, 1905.  
A. M. Drew, Attorney for Adminis-  
trator.

**Office of El Zuno Puro company.**  
Principal place of business, Visalia,  
California.  
Location of works, near Coalinga,  
Fresno county, Cal.  
Notice is hereby given, that at a meet-  
ing of the directors of El Zuno Puro  
company, held on August 16, 1905, an  
assessment of one-half-cent per share  
was levied upon the capital stock of the  
corporation, payable immediately to the  
secretary of said company at his office,  
in Visalia, California.  
Any stock upon which this assessment  
shall remain unpaid on the 23d day of  
September, 1905, will be delinquent  
and advertised for sale at public auction,  
and unless payment is made before, will  
be sold on the 20th day of October, 1905,  
at 1 o'clock p. m. of said day, at the of-  
fice of said company, to pay the delin-  
quent assessment, together with costs  
of advertising and expenses of sale.

Guardian of the Persons and Estates of  
said Minors.  
E. W. RUSLEY, Attorney for said  
Guardian.

**Advertisers Use  
the Republican**  
The Republican is the largest and most  
influential newspaper in the city of Fresno,  
California. It is published daily, except  
Sundays and holidays. Its circulation is  
large and its advertising rates are low.  
It is the best place for advertising in  
Fresno, California.

A coffee for connoisseurs—our Hy Lo, lb. 20c. Try a sample pound.

**Redlick's**

No aches or pains in Men's Walkover Shoes; \$6.00 grade \$4.00; \$5 kind \$3.50

## All Over Embroideries Today 39 cents

Those all over Embroideries, not a one in the lot worth less than \$1.00 each, and mostly worth up to \$2.00; an exceptional bargain.

Hundreds have admired them since they were on display. We have never shown handsomer patterns; every one entirely new. These are genuine Swiss embroideries, extremely wide, and remarkably beautiful; they are entirely different from any ever shown in Fresno.

The sale begins promptly at 9 o'clock this morning; try and be among the early callers.

## Boy's Suits \$1.50 New Skirts \$6.95

We will save you from \$1 to \$2 if we have the boy's size on this special bargain table. The ages run from 4 to 14 years but here and there some sizes are all sold. Bring the boy in to be fitted.

First showing of fall arrivals. Clever skirts in Panama cloth; very sheer and fine; silk and wool mixtures; tucked yokes; full side plaits; colors black, blue or brown. They are worth up to \$9.

## INTERNED VESSELS AWAIT THE SIGNAL TO SAIL FOR HOME

ST. PETERSBURG, Sept. 11.—No orders have yet been given for the return to home ports of the interned warships, in accordance with the terms of the peace treaty. The admiral can do nothing until notified by telegraphic exchange of ratification. When that occurs the vessels will hoist the home-ward bound pennant and start for the Baltic or Vladivostok under their own steam, and with their own crews, as the period of internment has been used to repair all damages sustained in the battle of August 10 and in the battle of the Sea of Japan. It is absolutely incorrect to say that any steps have yet been taken toward the execution of the new naval program, except the orders given for the construction of torpedo boats and for a 15,000 ton cruiser in England, as already announced. The next big vessel will probably be another 15,000 ton cruiser of the same type to be built in the Baltic.

## KEEP COUNT SECRET

### HEALTH BOARD SUPPRESSES BACTERIOLOGIST'S REPORT.

Reporter Fitch From the Meeting Because He Ousted Health Officer Hayden.

Dr. Loper, Loper, Burks and Paragan, Health Officer Hayden, Plumbing Inspector Ellithorpe and Sanitary Inspector Machen were present. Just as President Long had called the meeting to order and the secretary had read the minutes, Reporter James of the Evening Tribune came in and sat down. Dr. Hayden noticed him and said, "You are the Tribune man, are you?"

"Yes, sir," said James, "I called me up a few days ago about those butcher wagons!" asked the doctor.

"I'm the man," answered the reporter. "Well, I pay the rent for this office and prefer not to have anyone here who talks to me that way."

James explained that he had been in a hurry in telephoning and had no intention of being discourteous.

The health officer repeated his statement that the office was his.

"That's all I wish to know," said James, and departed.

The health officer then explained that the reporter had demanded very rudely over the phone certain information which he was not ready to give out. He said that he had complained to the Tribune management.

Dr. Loper reported for a special committee appointed to confer with the city attorney regarding rules concerning reports upon tuberculous patients.

Hayden's Report.

The monthly report of the health officer was as follows:

"Gentlemen—I beg to submit my report for the month of August as follows: There occurred in the city during the month 21 deaths, of whom 14 were white and 7 were yellow or Mongolian. Of the total 21 deaths, 15 were males and 6 females.

"The causes of death were almost or quite as numerous as the deaths, and were as follows: Premature birth, 1; chronic cystitis, 1; embolism, 1; typhoid fever, 4; tuberculosis, 2; apoplexy, 1; stillborn, 3; natural causes, 3; beriberi, 1; septicaemia, 1; gastro-enteritis, 1; congenital heart disease, 1; malnutrition, 1. I am at a loss to account for the numerous deaths from typhoid fever, as there were not many cases reported to the health officer. But it seems to have been of a rather bad type this year, what there was of it, there being a marked tendency to hemorrhages from the intestinal tract. Deaths from tuberculosis seem to have been rather less than formerly, due perhaps to the uniform temperature and comparative outdoor life of our population during the summer season, which two factors are undoubtedly conducive to longevity even in invalids.

"To offset the 21 deaths there were reported 25 births, of whom 24 were white and 1 Mongolian, there being 11 males and 14 females. This is a great showing for a city of twenty-five thousand people. You may think this total increase of four deaths and one birth is phenomenally small, but I beg to assure you that it is not (in Fresno) so unusual, as witness the record in this office since the new registration began, the first of June, under the new law for the collection of vital statistics. During the first three months of this period, June, July and August, there were reported 85 births and 76 deaths, a gain of 9 souls in that time. On this basis, we complete the annual increase in population at 36 souls for the year. How long will it take Fresno to reach the 50,000 mark this rate? Verily, we must open the gates to the Oriental hordes of China and Japan until we have learned the lesson of multiplying on the face of the earth, or we must forget the ways of race suicide. You will pardon my reference to this subject in my report, but the matter has never impressed itself so forcibly on my mind before, and not until began a study of these reports had I ever realized that "race suicide" meant anything to the immediate future of our country.

"However, I presume that this disparity may be accounted for in a degree by the fact that there are births of which no return is made to this office, births attended by negligent physicians and ignorant midwives and births attended by no one. But these comprise a very small percentage of the whole. Of those attended by negligent physicians there are a few, as witnessed by the return of two births I found on my desk this morning, that happened last month. But this negligence will be corrected, for surely if it is persisted in there will be some arrests made and good sized fines paid.

Vaccinations.

"With the approach of the opening of the public schools there have been a large number of free vaccinations made by this office, so many that I have seriously thought of setting apart a special hour each day for this work, as it interferes with other work and parties wanting vaccination do not know when to come to the office. Hence a special hour would accommodate all.

Barber Shops.

"In my report made to this board some months ago, I called your attention to the fact that there were a number of shops with no sewer connections as per ordinance. The sanitary inspector has notified these shops that they must conform to the ordinance made and provided for these cases, and as the time given them in which to comply has expired, I have asked him to proceed to file complaints against all delinquents. Nearly all of the parties are Japanese, but we cannot allow a Japanese to have privileges that we cannot accord to a white man.

Some complaint has been made that his regulation requiring barber shops to be connected with the sewer was unnecessary and a burden to certain ones, but we say that it is the law and a good one and should be enforced. If, however, it is an unjust act, then let the proper authorities repeal it.

School Buses.

"I have asked the plumbing inspector to examine the school houses, both in his capacity of plumbing inspector and also in the capacity of sanitary inspector. You will observe that his report on the same is very interesting. And this is another evidence that health is being put in the public at the price of eternal vigilance. These inspections must be made, not once a year, but over and over again. The same remark applies to the work of our sanitary inspector; his work must be repeated over and over again, or it is lost. I am prompted to these remarks for the reason that in certain quarters it is thought that the work of the sanitary inspector can be done in three months for the whole year, at least it can be brought up to where another official can sandwich it into his work at odd times. This is a serious mistake, for Fresno is a growing city, beyond the size where a man can get along with a sanitary inspector three months in the year. The time is not far distant when she will need two or three of them. As evidence of this efficiency I ask you to look at any of our alleys and see if they are not as well cared for as the streets; they have ceased to be dumping grounds for manure, offal, and the like, and are now nearly as high as the streets. It is now work to convince some of our people that they are made for highways and not for dumping ground, and this work must be maintained month after month in order to realize a proper degree of sanitation.

Dairies.

"I have visited all of the dairies and find them in good working order, with one or two exceptions. One exception is the result of ignorance and the other the result of perverseness and stubbornness, with both of which we will proceed to deal as the case seems to require.

"As a matter of fact the best milk comes from the small dairies, for the reason that a dairymen of a scientific turn of mind can operate an ideal dairy so long as he and his family is able to do the work, but immediately the dairy becomes so large that he must employ the aid of his family for help to conduct his plant, he at once finds the quality of his product deteriorating. It is to be hoped that the time will soon come when all our milk will be produced by the small dairies. The St. Louis Pure Milk commission goes so far as to advise the dairymen not to attempt to compete for their certification unless they can do all their work without hiring outside help. It is this problem that our dairymen are up against, as well as others, and for this reason I say the small dairies produce the best milk. I do not mean any reflection of the hired plants, for they all should give us good milk, if not the best article, and should all conform to the standards that we place for them.

"I find considerable objection in certain quarters to the proposed 'boiling' of the milk cans, but let me say the like some say that it will break all the bottles; one dairymen said that he would not do it; and so on. But I find it is practicable, in the ideas of some of the better informed ones, and not only that, but the man with the best count this month says it is practicable, and that he has been doing it at his dairy.

Meats.

"I am informed by Dr. Help that his department is not ready to report on the meat, but in the direction of investigating the shops for the use of preservatives on fresh meats. This will all be laid before you at another time."

T. M. HAYDEN, Health Officer.

In commenting on the report, the health officer said that the cases of typhoid fever commonly spoken of are in the additions, such as the new homes, where the people drink from shallow wells. There is practically none in the city, he said, except such as is brought in from the mountains or the colonies, as the city water is very pure.

The report was unanimously accepted, the members saying that they would back the health officer up on any arrests made under the report.

Japan Barbers.

Dr. Hayden stated that the time allowance to plumbers was up last Sunday and arrests for failure to put in plumbing would commence immediately. Five Japanese and two whites have as yet made no attempt to connect with the sewer.

Plumbing Report.

Plumbing Inspector Ellithorpe reported that he had issued fifty plumbing permits, inspected and approved forty-eight jobs, and issued thirty-three permits to connect with the sewer. He had found many things to criticize in the school houses, but these had been corrected before school opening. The Lowell school he had found the best fitted up in the city.

Dr. Ellithorpe stated that a great deal of time had been spent in perfecting the proposed plumbing ordinance, and commented on some of the features of the ordinance that have been criticized.

Dr. Burks called the attention of the inspector to the bad condition of the sewer that passes under the Santa Fe turntable. He said the matter should be corrected immediately.

Bacteriologist's Report.

The secretary had on hand Dr. Hel's report as bacteriologist concerning the count made of the milk in all the dairies. The president stated that as the board had not yet set a standard bacterial count as a test of milk, the report would not be given out. The paper was passed around from one member to another, the health officer commenting that it showed great improvement over last month.

Question of Publication.

Dr. Paragan after reading the report rose to move that it be published. He said that the board had put off setting the standard count month after month, and was now putting it off for another month. He said that the count made that should be set, then a count made that could be depended upon, and then the board stand behind its bacteriologist in compelling respect for the figures. He said the count should be published as this was the way in which the dairies would be compelled to keep their places clean and their cows clean down.

Dr. Burks and other members discussed the matter of what standard should be set, but there was no second to Paragan's motion. Dr. Long commented on the inequality of the report for successive months, saying that counts that were very low one month would be high the next, and that some grave injustice might be done to honest dairies by the publication of such reports. He was sure that the Fresno dairies are for the most part very clean.

Dr. Loper said that he would be glad to publish the figures if he thought the public would understand them. Dr. Burks said that the board would have to stand behind its bacteriologist's figures, and that a standard must be set soon if any work was to be done.

Plumbing Ordinance.

The board had on hand a copy of the proposed plumbing ordinance but there was little comment upon it. The bacterial standard suggested by the trustees, 5,000 in summer and 50,000 in winter, changed to be within the power of the health board upon notice, was left standing.

Sanitary Inspector.

Sanitary Inspector Machen made a brief report. Dr. Hayden remarked that it was supposed the trustees would have some one present with regard to the proposed cutting off of the sanitary inspector or assistant plumbing inspector, but no one was there on behalf of the trustees. No further comment was made on the trustees' proposal to abolish Machen's job. The report was accepted.

## HIS PARTNER'S PLAY

### LED TO FIGHT WHICH ENDED IN SHOOTING.

Giuseppe Gasgotti ailed for Attempted Murder, Makes a Dash for Freedom.

Giuseppe Gasgotti, an Italian, was arrested Sunday night about 8 o'clock for attempting to kill Joe Deluke, a fellow countryman, by firing two shots at him with a weapon.

The shooting took place in the Commercial saloon, and started over a card game. Deluke and Gasgotti were playing pool, being partners in the game. Deluke got mad at his partner's play and called Gasgotti a vile name, and the same time making a pass at him. Deluke came around the table and a hand-to-hand conflict took place. Gasgotti, finding things too hot for him, turned and ran toward the back door at the same time pulling his revolver and firing two shots at his assailant. He did not look back to see whether he had hit his man or not, but fled through the back door of the saloon into the alley and then out, toward Main street.

He was pursued by a howling mob and was tripped up by Sheriff's Patrol and Rutherford. They took him to jail.

Yesterday Officer Russell left the jail with him for the police court for his arraignment and when he reached the alley between J and K streets Gasgotti thought he did not care to interview the judge, so he jumped off up the alley toward the engine house as fast as his legs could carry him. Russell yelled at several of the firemen and they joined in the chase. After running him about two blocks Normant landed one of his terrible lefts and the fugitive went down. Normant kept the man down until Russell came up and then he went to court. He was arraigned before Judge Briggs with bail fixed at \$1000.

Mrs. Chwengel Gets Divorce.

The Schwengel divorce suit, which was tried in the Superior court, early in June, was only decided yesterday, when Judge Austin filed a decision granting an interlocutory divorce to Amelia Schwengel from Philip Schwengel. The wife originally sought the divorce on the grounds of cruelty, and the husband filed a cross complaint charging Mrs. Schwengel with infidelity. Judgment was not entered at the time as it was thought that the couple might be reconciled. This appearing impossible, the divorce was finally entered. Mrs. Schwengel being awarded the two children and \$10 a month for their support. The parties are residents of the Russian quarter.

DIED.

WHITE.—In Fresno, September 10, 1905. John E. White, a native of Canada, aged 32 years, 11 months, 13 days.

Funeral today at 2:30 o'clock from residence, No. 1921 Sacramento street, between I and J streets. Interment, Mountain View cemetery.

J. H. Heal reported to the police last night that his wheel had been stolen from a rack in front of the Sequoia Cafe. On the top of the front fender is inserted his full name.

Satisfaction of the judgment in the suit of E. E. Anderson against Seropian Brothers was yesterday made in the Superior court, by the defendant's bondsmen, the United States Fidelity and Guaranty company paying over \$8505.17, including interest on the judgment.

Mrs. Page Baker has consented to the appointment of L. D. Stephens as guardian of the estate of her son, Joseph Westwood Baker, but not of his person. The appointment was indorsed.

Dante R. Prince and A. J. Coll left last evening for Oakland on business. Mr. Coll will bring back his little daughter, whose mother recently died and who is with relatives in Oakland.

## SOAP QUALITY

The regard for quality that marks our stock throughout is evident in the selection of toilet soaps we provide. These soaps are the products of the best houses, the kind that are made for discriminating trade. From the cheapest to the highest priced each soap is guaranteed pure and affords the utmost value for the cost.

The stock includes the leading brands of both foreign and domestic makers. You find just what you want. If you have no choice you are certain in any case of a superior quality of goods.

## CITY SCHOOLS OPEN.

High School Has Slightly Smaller Enrollment Than Last Year.

This morning will find the schools of this city in full swing upon the fall term's work. Yesterday the pupils assembled at the various rooms, but for the most part, the sessions were short, consisting only of the assignment of seats and giving out of the first day's lessons.

The report of enrollment at the high school was 280, about ten less than upon the first day last year. This is, however, no real test of the number that will be in school during the term, as the attendance always grows twenty or thirty during the first two weeks. The estimates for the entire city is that there may be 200 more pupils than last year.

The opening of the term was in general without incident. As very few changes have been made in the list of teachers, things are running even more smoothly than usual.
